

L121 Revision 4

Prepare headphones tray to take up for next lesson

Small Ensemble Instruments

- Revise using "Small Ensemble Instruments" Google Slides
- One finds instruments from the full set
- Print full set of small ensemble instruments
- ? Where might the music be performed?
 - Chinese music - Teahouses
 - Hindustani Classical music / Arabic music:

Courts/temples > Open private/semi-private houses > Concert halls and opera houses
Ravi Shankar brought Hindustani Classical music round the world.

- Transmission - if asked, music conservatoires and oral/aural repetition are great shouts.

The Prodigy "Break and Enter" (1994)

- Write that it's EDM in the question

<Pictures of album cover, "The Scream", Han Solo>

- Hum the bassline together, then play on piano, add octave below

You will hear an extract of Electronic Dance Music (EDM). The extract begins with the passage printed below.

♩ = 138
Synthesiser

2 3 4

5 6 7 8

9 10 11 12 continues...

- 1) In the first twelve bars, describe what is **not** written above (i.e. the musical elements apart from the low synth). [4]
- 2) Describe how the music continues **after** the printed passage. [4]

>> <https://www.youtube.com/watch?v=qSnwTJbl9Ec&t=1m54s>

1.

- A vocal sample
- Glass breaking
- Syncopated synth beeps an octave apart
- String pad
- Very fast / short note values, complex, syncopated, sampled drums (machine).
Accept polyrhythm / syncopated

2.

>> play from 2'14" to hear just this

- This is in the document

The next section is a breakdown where the texture suddenly becomes thinner. The drums stop initially, and we hear a synthesiser (treated with filtering effects and reverb) play an angular hook at a higher pitch, accompanied by string pad chords and much longer, quieter bass notes. There is then a build up, where a busy semiquaver percussion pattern involving ride cymbals and hi hats is introduced along with a vocal sample. The written synth bass returns before we hear a drop.

Closing

- Play last 10 seconds and elicit these terms
- Delay
- Outro

<Inside artwork for Music for the Jilted...>

- Album released in 1994
- UK government struggling to break up unauthorised raves which could stretch to thousands of people.
- Quote from the **actual legislation** introduced involved describing music that "sounds wholly or predominantly characterised by the emission of a succession of **repetitive beats**."
- "Break & Enter" is a response.

Yoko Shimomura "Happily" from Gran Saga question

- Elements of Music revision
- Put the [Elements back in](#)
- Individually, ss invent answers (in the margin, or at the top and then draw a line through - as with English) thinking about elements of music
- "Gran Saga" is a JRPG (Japanese Role-Playing Game) which takes place in the Kingdom of Ethprozen, a prosperous [rich, healthy and happy] land blessed by the Goddess and defended by the Knights of the Realm, courageous individuals who have sworn to uphold the Goddess' will and protect the people of Ethprozen.

Q: How does the composer capture the atmosphere of the game?

>> <https://www.youtube.com/watch?v=DQ0xHNaqfdc>

- Arpeggiated figures
- Melody with mixed articulation
- Major key, some playful chromaticism
- Triple-time waltz / one-in-a-bar
- Romantic-inspired melodies
- Melody and accompaniment but with lots of countermelodies it seems polyphonic - representative of characters
- Wind instruments suggestive of flora and fauna
- Harp sweeps suggestive of adventure
- Violin solo / group creates a contrast

Optional - De Blob

- Illustrate “adaptive”
- Players interact with the music through gameplay

https://www.youtube.com/watch?v=q6NZ9agmqoY&list=PLi4mhuWiu1u77RHGvJT_i_QgWSo_kbR9COd&index=3&t=2m10s

Describe the Music

A Berlinist - Chiasm

>> https://www.youtube.com/watch?v=kDfbwcG43pQ&list=RDkDfbwcG43pQ&start_radio=1

B Heart of the Sunrise?

Yes - Heart of the Sunrise

>>

https://www.youtube.com/watch?v=T5XWOOOCg-U&list=RDT5XWOOOCg-U&start_radio=1

C Aretha Franklin - Soul Serenade

>> https://www.youtube.com/watch?v=XUjN1sMaJ-g&list=RDxUjN1sMaJ-g&start_radio=1

D Arvo Part - Fratres for Cello and Piano

>> https://www.youtube.com/watch?v=5vO92REraUo&list=RD5vO92REraUo&start_radio=1

E Polegnola E Todora

>> https://www.youtube.com/watch?v=Lj-o1tj_idk&list=RDLj-o1tj_idk&start_radio=1

Final Thoughts

- ? What do you do if you're not sure if an answer is X or Y?
- Tomorrow: I'll be on hand, but might not say much. Just answering questions.
- You've done all the hard work
- It's been fun working with s who turn up ready to work! Best of luck with all remaining exams!

L76 Composition

Composition Admin

- Runthrough
- iSAMS preliminary
- Splitter
- Headphones transport

Quick

- DR - Great communication in doc last week. Tasks will get you to nearly-finished
 - Next: Title, Articulation of Bari sax melodies, connecting A section to C section
- DT - Top marks for co-operation, predicting first to finish!
- EN - mute the piano. *If you really want piano at the end we can add it quickly*
- GSG - We have tidying to do - finish structure this week? Dynamics at start of sections, legatos
- HN - b29 repeat drums a few bars
- MA - Stop. Adding. Material. See the Beats hints given
- MC - New addition to B section last week is amazing, but MUST follow tasks now. I will check understanding.
- MM - absolutely loads of tasks given to do! Get on with it
- PA - loads of tasks! Getting there!

- PV - structure - should look like A B A C A D - what is not clear?
 - delete that corrupt drum kit bit and we'll re-input

First

- SB

Composition two - just click "Concert Pitch", start thinking about concept?

- Align the drum kit with bar 1 of the phrase
- Add a bar before b13 and elicit it's a clone of bar 5
- Work on his A section bassline with him - just delete first couple of minims?
- Copy-paste A section to the end but keep the ideas from the end to create the A2 section
- Drum Kit rhythms need sorting - one missing rest in bar 2 of the first pattern, second one do together

- AB
 - Get her ideas in order in the file quickly
 - Delete bits at front, current gap in 12-bar A section, correct LH
 - Cut 4bars of A to leave 8 bars cozy chords.
 - Insert this cut bit and elicit that 4 more bars required (use the sequence?)

- From here on, 12 bars finish the piece
- Leave her doing dynamics

- MC Articulation, Drum Patterns, Dynamics
 - b14 is a G# in the guitar then G nat
 - b11-12 loop
 - Tidy up B section structure together
- PV
 - Properly kick him off on structure
 - Sort rests in b1
 - Tidy up notation
 - Re-input broken drums (previously bars 11-15 [sic])

- EN
 - Passing notes in A2 - *nearly*. One obvious correction?
 - Articulation in Cello introduction - *nearly*. One obvious correction?
 - b48 Anat Bnat C# should be one semitone lower
- MA
 - b9, b13 two semiquaver rests > r
 - b17 bass drum at end of bar should be a C
 - b25 notate drums as stems up

- HN

Sign off on A section:

- Try snare on b2bt3, repeat that all through introduction
- Add and delete Bass Drums (keyboard 4, A) to get visual correct
- Sign off on Dynamics (lots can be deleted) and Articulation
- then repeat with changes at the end and create an ending
- (Bar 37 is a structural anomaly - delete? OR add accents)
- Create an intro with her out of the first four bars

- DT

- b94 D# should be a quaver

Second

- DR - His tasks will get him to nearly-finished. Do some with him when you can.
- GSG
 - Cautionary B naturals
 - Bring back 'the chord' from v31 (or earlier) as an introduction?
 - Pedalling
 - Hand distribution

- IH
 - b49 rhythm notation
 - b66 Trumpet - slurs
 - Articulation polishing: Alto Sax + Trombone slurs matchup, b48
- MM
 - Some down-ups to re-spell the B minor notes
- PA
 - Slurs can't cross rests
 - b17 quavers all stacc

Part Two

- Laptop 16 is out
- Tempi
 - Open a MuseScore file and bang some notes in
 - Tempo should have a *word* and a BPM
 - Could be Italian, could not be
 - Better if number is on the metronome, but doesn't have to be
 - Double barlines for changes
 - Rit and Accel

L77 Daft Punk “One More Time” (2001)

Admin

- Runthrough, chairs-desks-laptops, Headphones transport?
- Printing, IT (keyboard, mouse, YouTube, projector)
- Title: Music for Dance | Picture: Play Nightvision as they come in AND have in-masks Daft Punk ready
- Books out | Laptops out, splitter & Jack adaptor
- iSAMS preliminary entries
- DR and AB to *start*

>> Nightvision

<https://www.youtube.com/watch?v=xBTqRd09y3E>

Nightvision

- Discuss the video
 - What does the video say about what being a celebrity is like?
- Why do you think they wear masks?

Question One

A

continues...

>> Listen to the 8 bars once together, for geography

https://www.youtube.com/watch?v=A2VpR8HahKc&list=RDA2VpR8HahKc&start_radio=1

- After the written eight bars, there are three more eight-bar sections.
 - Describe what happens in each of these eight-bar sections (after the written music).
- A) A brass sample is presented. The drums seem quiet because all the low frequencies have been removed with EQ.
- B)
- C)
- D)

B very similar to A, a heavily processed vocal enters at the end

C a bassline enters, with an mf kick drum

D a stronger four-on-the-floor Drum Machine pattern begins, kick-snare-kick-snare. At the very end, the bassline and drum are removed for two bars.

\. Drum Machine = an electronic device/software that generates percussion sounds

\. four-on-the-floor = a kick drum on every beat

>> https://www.youtube.com/watch?v=A2VpR8HahKc&list=RDA2VpR8HahKc&start_radio=1

Build Up and Drop

- What is the term for what happens at 4'17" (NB: this is almost two minutes later)
- >> from 3'30"

- The Drop

\. Drop = the beat or bassline suddenly kicks in with full energy (typically in a modern dance track)

...and how could you describe what happens beforehand?

- Build Up

\. Build Up = creating tension before a drop

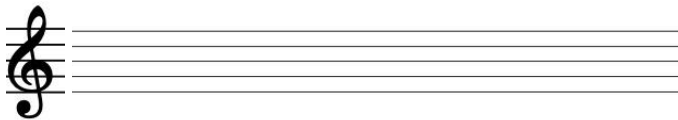

Key Signature

<Projector>

- ? Which sharps do we find in the piece?
- Check all of them to make sure.
- ? What key signature is this?
- Play it on the piano to check we agree it's happy

More Questions

- 1) In English or Italian, write down how fast you think the piece is.
- 2) Write a major scale in D major here:

- 3) On the first, fourth and fifth notes, make chords I, IV and V. Then write the names of the notes in these chords below:

I

IV

V

Challenge

- 4) How many different chords are there in One More Time?
- 5) Label the chords using roman numerals (I, IV and V)
 - If there are "added notes", write them down!

1 - BPM 123 - for me, right between Moderato and Allegro

G maj7

A

F#m7

- Make absolutely sure the F#m7 is clear with Challenge
- Reflect - we never get chord I (D major)
- This is what makes the piece really moreish

<Demonstrate this on the piano>

- OPTIONAL - I think it's better to think of this in G lydian mode

Sampling

- Let's see how it was made!

? Elicit word "Sampling" if you can

- Listen very carefully to Eddie Johns "More Spell On You" (1979) first '50"

https://www.youtube.com/watch?v=JYya05epoZ8&list=RDJYya05epoZ8&start_radio=1

- Watch the "How Daft Punk made..." video

https://www.youtube.com/watch?v=Q-ycwVZB_ZQ

(DONE with this Y10...)

\. Sample = Chopping a fragment of the audio of one music track and using it to create something new, possibly by looping it.
